

Dear Parents,

Our school is implementing a program called *i-Ready*[®] *Diagnostic & Instruction* that will provide our students with an innovative diagnostic assessment and engaging instruction. The focus of this online program is reading and math. *i-Ready Diagnostic & Instruction* helps teachers to effectively assess their students and then provide individualized instruction based on each student's unique needs.

i-Ready Diagnostic & Instruction assesses and teaches the following skill areas:

Reading

- Phonological Awareness
- Phonics
- High-Frequency Words
- Vocabulary
- Comprehension

Math

- Number and Operations
- Algebra and Algebraic Thinking
- Measurement and Data
- Geometry

i-Ready Diagnostic & Instruction begins by giving students an adaptive assessment in reading or math. An adaptive assessment is a test that automatically adjusts the difficulty of the questions according to each student's performance in order to determine his or her abilities in reading or math.

Once your child completes the test, he or she will be assigned online instruction to support his or her progress in mastering each skill. The online instruction is designed to be both challenging and engaging. *i-Ready* delivers instruction using engaging, contemporary animation; the lessons are also interactive. The result is an experience that attracts and holds your child's interest while also teaching important skills and concepts. These lessons are proven to help students grow academically. Students can access i-Ready lessons at any time of the day from school or home.

Should you have further questions, please do not hesitate to contact our office or your child's teacher.

Frequently Asked Questions

Question	Answer
Can my child assess i-Ready from home?	Yes, your child can assess i-Ready at home by going to www.login.i-ready.com and login using their student ID as login and password.
How can I monitor my child's progress	Click on My Progress on the student dash board. My progress shows the students completed lessons and the corresponding score.
Should I help my child on lessons?	You may help your child with any technical issues, such as adjusting your computer's speakers, but it is important that your child completes the lessons independently to the best of his or her ability.
